We pray no one takes the following offensively. However, if there is any one Afrikan tradition that can unify New Afrikans in north amerikkka, in the way that arabs are unified under islam and whites under christianity, that tradition would be Vodun BECAUSE of its unifying nature.

Unlike · Comment · Share

You and 3 others like this.

Daa Fawesagu Well, New Afrikans would have to WANT to unify first to unify under any system. One reason the Tovodun (National Ancestor) Marcus Garvey was successful was because New Afrikans WANTED to unify.

family delivered Ahasu (king) Gbehanzin (who fought against the french and the slave trade) into the hands of their FRENCH OPPRESSORS. Why? So they could rule. The french then appointed Agoli as the new king of Danxome. There is a king named Agoli in Abome, Benin today who is a descendant of the Agoli who sold Gbehanzin out to their french enemies.

Greetings to all. As you all know we have new epub books. To read epub books you need an e reader on your phone or tablet. These are downloaded for FREE. To read on a Mac or PC one must download Adobe Digital Edition for FREE. We have tested our ebooks on any device they can be read on (tablet, phone, pc, kindle, mac) and they all work. You would have to have a SUPER OLD computer for them not to open for you. That being said there are NO REFUNDS for ebooks or epubs. That is industry standard anyway. Thanks for your past and future patronage of our works. A dupe

You and Prince Kamaazengi Marenga I like this.

Daa Fawesagu Introducing Gbesu Wema Kulito Vol I: Book of Divine Ancestral Law. Gbesu Wema Kulito is the first epub format book written from the perspective of West Afrikan Vodun and is written by a king, priest and practitioner of Vodun. Gbesu Wema Kulito goes beyond the intellectualize of Afrikan tradition and takes the reader on a journey into the inner houses of Vodun dealing with Afrikan sacred geometry, concepts of the mind and its relation to the spirit according to Vodun, ample examples of Fon language and interpretations, the Vodun concept of the various souls we possess and how we are to integrate them, kwk. Gbesu Wema Kulito truly delves into Afrikan spirituality as a science of power and functionality adjustable to the circumstances, conditions and geography wherever Afrikans may be.

What does transcendence, quantitative mathematics, meditation, and mind theory have to do with one another? How are they expressed in Vodun and how do they play out in the drama of life? How do we use the aforementioned to heal and protect ourselves and our families? How does Vodun express Segbo (the Creator) as LOVE; a concept that is much neglected by practitioners of Afrikan tradition. Gbesu Wema Kulito goes into the crux of these issues and gives viable tools towards success.

One of the most profound and useful sections of Gbesu Wema Kulito is on the Science of Ancestor worship. This section gives much needed clarifications and delves into what we really mean by Ancestor worship and veneration. Receive Gbesu Wema Kulito Volume I today as an instant download for the sale price of only \$9 at Kilombo Restoration and Healing <http://www.restorationhealing.com/gbesu>. To read this book on a pc or mac you will need to download Adobe Digital Edition (free). This book can be read with different E Reader technology on any android, i phone or i pad device.

Black August facts. August 30, 1800 Great National Ancestor Gabriel Prosser's planned revolt was betrayed by two negro SLAVES who loved their master more than freedom. Ancestor Gabriel escaped but was caught after being snatched out by yet another SLAVE who did not even get the full reward for telling on him. Long live the spirit of Baba Gabriel. Ibara torun.

Slavery has done SUCH a job on us. Here in amerikkka we are spread across so many ideologies, beliefs, and religions that have NOTHING to do with us as Afrikans. And we can overstand people's problem with the term Afrika because it was a name put on the continent by Romans (even though they got the name from an ancient "North Afrikan" tribe living there named Afriq). That being said we should be trying to find out exactly who we are (not necessarily through a dna test). We are Fon, Bamileke, Mande, Igbo, Ewe, Fon, kwk. But that's only ONE part of solving the equation.

Like · Comment · Share

At Ganlodo Xotome (Kingdom of Ganlodo) August 20 - September 19 is Tovodun or National Ancestor month. Join us in prayers of appreciation and elevation geared towards those powerful New Afrikan national ancestors who have done so much for our communities that they have been elevated to the proper level of veneration. These are Ancestors that reciprocate their ase from the Ancestral Realm to assist New Afrikans (Afrikans born in amerikkka) in their efforts towards peace and prosperity as well as assist us in our perpetual war with our enemies of close approximation.
